(A Unit of MoodlakatteNagarathnaBhujanga Shetty Trust(R.))

(Approved by AICTE, New Delhi & Affiliated to VTU, Belagavi)

Moodlakatte – 576 217, Kundapura Taluk, Udupi District,
Karnataka

NSS and YRC unit

Date: 26.08.2023

Topic : Tuberculosis and AIDS awareness program

Organized On : 22/08/2023

Resource Person : Nalinakshi, Counsellor, govt sub divisional hospital kundapura
Gurudas H, Counsellor, govt sub divisional hospital kundapura

Participants : Students from CSE, AI&ML, ECE

No. of students – 160.

PREAMBLE

The program aims to educate the students of MIT, Kundapura regarding awareness on Tuberculosis and AIDS. The youth of the country should be aware of possible causes, the spread rate and preventing methods to safe guard them from this type of viruses. The program also intends them to be aware of their city, town and possible number of cases and their case studies.

BRIEF PROFILE OF THE CHIEF GUEST

Nalinakshi counsellor. govt sub divisional hospital Kundapura. Master degree of social work St. Aloysius college Mangalore.

REPORT

The NSS and YRC unit organized the talk on “The awareness on Tuberculosis and AIDS” on 22nd August 2023. The counselor Nalinakshi addressed the students by delivering the useful information on these diseases, because they continue to impact millions of lives around the world, and it is our collective responsibility to raise awareness, and work towards their prevention and treatment. She started with Tuberculosis, where she mentioned it is an ancient disease. It is caused by the Mycobacterium tuberculosis bacterium and primarily affects the lungs. TB is curable and preventable. We must educate ourselves and others about the symptoms, transmission, and prevention of this disease. Persistent cough, fever, night sweats, and weight loss are common signs of TB. TB spreads through the air when an infectious person coughs or sneezes, so early detection and prompt treatment are crucial to prevent further transmission. Lately she moved on to the topic AIDS, she emphasized more on this topic, because it is a major global issue and there is no cure for this condition and is primarily spread through unprotected sexual contact, contaminated needles, and from mother to child during childbirth or breastfeeding. Despite substantial progress in HIV prevention and treatment, AIDS still affects millions of people worldwide. The most effective way to combat AIDS is through prevention. Safe sex practices, regular HIV testing these are the prevention methods. She also specified that, even if someone gets affected by HIV the other people shouldn't see them as a thief and they should be treated with the same respect and dignity. Moreover, we must continue to support research and development efforts to find a cure or better treatment options for HIV. Medical advancements have already transformed HIV from a death sentence to a manageable chronic condition. This talk was very helpful for our students, because other than curriculum they explored the knowledge on health-related subjects. Youth can play a vital role in ending the spread of these diseases and creating a healthier future for all. The stage program was hosted by Mrs. Akshatha Naik and the NSS coordinators Balanageshwara and Varuna Kumara were present.

ORGANIZING COMMITTEE

Staff co-coordinators

Mr. Bala Nageshwara S-NSS coordinator

Mr. Varuna Kumara-YRC coordinator

Student Coordinators:

Mr. Manjunath, 4th sem EC

Ms. Vandana ,4th sem EC

FEEDBACK

Resource person: The arrangement was well organized. Students were active and the response from the students was good.

Students: The students found the program informative. It was an interventional study, which was done to assess the awareness regarding tuberculosis before and after health awareness program. Student found that the information shared by the counsellor was the ground reality which is found in and around Kundapura city and also students got awareness regarding the highest rate of contamination is of HIV is through sexual contact.
