Preamble

The industrial visit promises invaluable insights and practical knowledge. Our destination holded the keys to unlocking the complexities of management strategies, leadership dynamics, and the real-world application of business theories. Prepare to witness the synergy between academia and industry at its finest as we explore the inner workings of businesses during this transformative MBA industrial visit.

Today, we embark on a journey to explore the intricacies of beverage production, witnessing cutting-edge technology and sustainable practices that define this thriving industry. Here the industry person let us explore and under where innovation and precision converge to bring refreshing experiences to lakhs.

BRIEF PROFILE OF THE COMPANY

In 2018, Shanteri Botling Company is an mineral water manufacturing unit in Uppunda, Karnataka. Started by Shashidar shenoy and Nagaprasad as partners. Bringing a non-returnable packaging owing to various other problems made with PVC (Poly Vinyl chloride).

The upsurge in the sales by mid of 2020 dude to various regional occasion. Shanteri has two mineral bottle selling in market namely, AQUA and NOVA selling from Bhatkal to Hebri. The company thoroughly operates in distribution channeling through mediators. Neeram aqua is a leading water

brand in the coastal Karnataka, we have always placed quality, innovation, and community at the heart of our business.

REPORT

On the date 5/01/2024 Department of management studies organized industrial visit to Shanteri Botling Company, Uppunda, Karnataka. On the day Mr. Shashidar shenoy and Mr. Nagaprasad partners of the company took our students on plant tour explaining about different departments, steps in production, Hygiene measures taken, machineries used for production and active interaction with students help our students to understand the entire plant design and process well.

Objectives:

Industrial visits give greater clarity about current trends in the market, the future scenario of the industry, and the latest technologies, as students now practically experience how these concepts are put into action. Here are some benefits of Industrial visits for students.

- The students get to know the functioning of the industry, how the machine parts work, what principles they follow, how much time it will take to complete the process, how the workers manage the work properly.
- Industrial visits provide students an insight into the real working environment, workstations, plants, assembly lines, machines, systems, and interact with highly trained and experienced personnel.
- This is a good opportunity for the students to learn how to make plans and how to complete them before the deadline. Interaction with the industry members will let them know about their work and how they organize their whole work and make progress.
- Industry interaction is also helpful in updating the curriculum when there are some changes in prevalent technologies; as we all know the technology is changing remarkably, so we would have to adopt new technology.
- These educational/ industrial trips also help the students to identify their learning towards their field and can choose their future work areas like marketing, finance, operations, IT, HR, etc. Students should never miss the opportunity of industrial visit as it plays a crucial role in their life.
- While interacting with the team leader, professional, HR, a different kind of confidence develops in students, which is very beneficial for students and their career.

- The students will find out about company policies in terms of production, quantity & quality, service management, and acquaint themselves with the working of instruments during the course curriculum.
- It helps you to understand the do and don'ts of the industrial practice so that in the future if the student is working in an industry he/she will remember the do and don'ts and will repeat the don'ts. Educational tours are a life changer if you professionally take that.

Students do wonders in their interviews as they know about the functioning of industries because of Industrial visits. Hence, an industrial visit is very important for all the students.

Outcome of the program:

An industrial visit gave students a brief knowledge about what they are interested in, the students will get to know the working environment in the industries, their processing, how machines are working, interact with the workers, and many more.

ORGANIZING COMMITTEE

Prof. Mrs. Thilaka laxmi

Asst. professor Miss. Varsha Shenoy

Conclusion:

In conclusion, the industrial visit proved to be a valuable experience, bridging the gap between theoretical learning and practical application. It provided insights into industry operations, fostered networking with professionals, and allowed participants to witness firsthand the application of classroom knowledge in real-world scenarios. This exposure is crucial for a holistic understanding of the industry and can significantly contribute to the overall development of participants.
