Karnataka

Date: 19/Mar/2024

Topic : **INDUSTRIAL VISIT**
Organized On : 19/Mar/2024
Managing Director : **Uday Kumar Shetty**
Sri Chakra Container Padubidri
Participants : First year students from MBA;
No. of students Above 90

Preamble

The preamble to the importance of industrial visit was we know the practical things of what the workers are doing and how the manufacturing and the process of manufacturing we know by this session. An industrial visit, also known as an industrial tour or field trip, is a visit by students or professionals to industrial facilities to gain practical insights into the working environment, processes, and operations of a particular industry. It provides an opportunity to observe real-world applications of theoretical concepts learned in the classroom, understand industry-specific challenges and innovations, and interact with industry professionals to gain valuable insights and network for future career opportunities. Industrial visits are often organized by educational institutions, companies, or industry associations to enhance the learning experience and bridge the gap between theory and practice.

BRIEF PROFILE OF THE INDUSTRY

The Shri Chakra Container is a company that specializes in the manufacturing and distribution of high-quality containers for various industries. They offer a wide range of containers, including plastic, metal, and glass, suitable for packaging liquids, powders, and other products. The company is known for its durable and innovative designs, catering to

the specific needs of its clients. They are committed to providing environmentally friendly packaging solutions and ensuring customer satisfaction through their products and services.
