Trainer's Feedback:

The overall feedback of the Seventh Sense Trainers for the Placement Training Program at Moodalkatte Institute of Technology and Management Institution was very positive. Students are very cooperative, eagerly waiting to learn new concepts.

Students are very good and interactive in all sessions, dedicated and punctual. Students were good at problem solving with short cut tricks not in traditional method and students need help in problem solving in general method because all questions not possible to solve with short cut tricks

Some more classes for these students can ensure a pickup in their pace in problem solving. Practicing problems on regular bases will help them in turn during placements and other competitive examinations. They were interactive and proactive in Q&A Session. Students were good, disciplined but were lacking in basic, we tried to clear it, rest everything went well. Students must be confident in interviews. We suggest the college to impart training programs from 1st year we begin with Communication English, Aptitude & technical skills.

PURPOSE OF THE TRAINING PROGRAM:

- Our Training program would assist the students-keeping their placements in mind, by crafting a captivating interpersonal skill, along with strong responses to both behavioral and technical interview questions.
- Fine tuning of the student's attitude to learning, motives, values and deal with different situations responsibly and diligently, also makes them a good predictor of academic success.
- This training program helps them leverage their most marketable-and transferable-skills to new career paths and types of work.
- Our training would help students to set inspiring but realistic goals in their professional life.

The students are very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team of, Moodalkatte Institute of Technology and Management, for giving us this opportunity.
