NSS unit

Event	:	Planting on account of Independence Day celebration
Organized On	:	14/08/2019
Place	:	College campus
Participants	:	Engineering students

PREAMBLE

The act of planting on this significant day symbolizes our dedication to the principles that our nation holds dear - freedom, unity, and responsibility. Just as our forebearers fought for the freedom that we cherish today, we too must fight for the freedom of our environment from the perils of pollution and degradation. Each sapling that we plant represents a pledge, a promise to nurture and protect our shared home. It is a small but significant step towards creating a greener, healthier planet for generations to come.

REPORT

The NSS unit organized a plantation program on 14th August 2019 in college campus. Plantation is a symbolic gesture to highlight the need for environmental preservation. Trees play a vital role in maintaining ecological balance by absorbing carbon dioxide, releasing oxygen, and providing a habitat for numerous species. The celebration acts as a reminder of the interconnectedness of all living beings and their dependence on a healthy environment.. Different trees attract various species of birds, insects, and animals, creating a harmonious ecosystem. Trees act as carbon sinks, absorbing and storing carbon dioxide from the atmosphere. By planting more trees, becomes a significant step in mitigating climate change. The festival sends a strong message about the role of forests in regulating weather patterns, preventing soil erosion, and combating the adverse effects of global warming. This collective effort not only improves the green cover but also builds a sense of environmental stewardship among citizens. The celebration provides an excellent opportunity for educational institutions to impart knowledge about the importance of trees and forests. Students learn about the ecological significance of trees, the threats to our environment, and the role they can play in conservation efforts. This knowledge empowers the younger generation to make informed decisions for a sustainable future. Together, through this collective effort, we honor our past, celebrate our present, and sow the seeds for a brighter, more sustainable future. May this planting initiative be a symbol of our unity, echoing the spirit of independence that defines our great nation. The program was inaugurated by Principal Dr.Chandra Rao Madane and R&D Director Dr.Abdul Kareem ,the NSS coordinators Balanageshwara and faculties, students were present.

ORGANIZING COMMITTEE

Staff co-coordinators

Mr. Bala Nageshwara S-NSS coordinator

Student Coordinators:

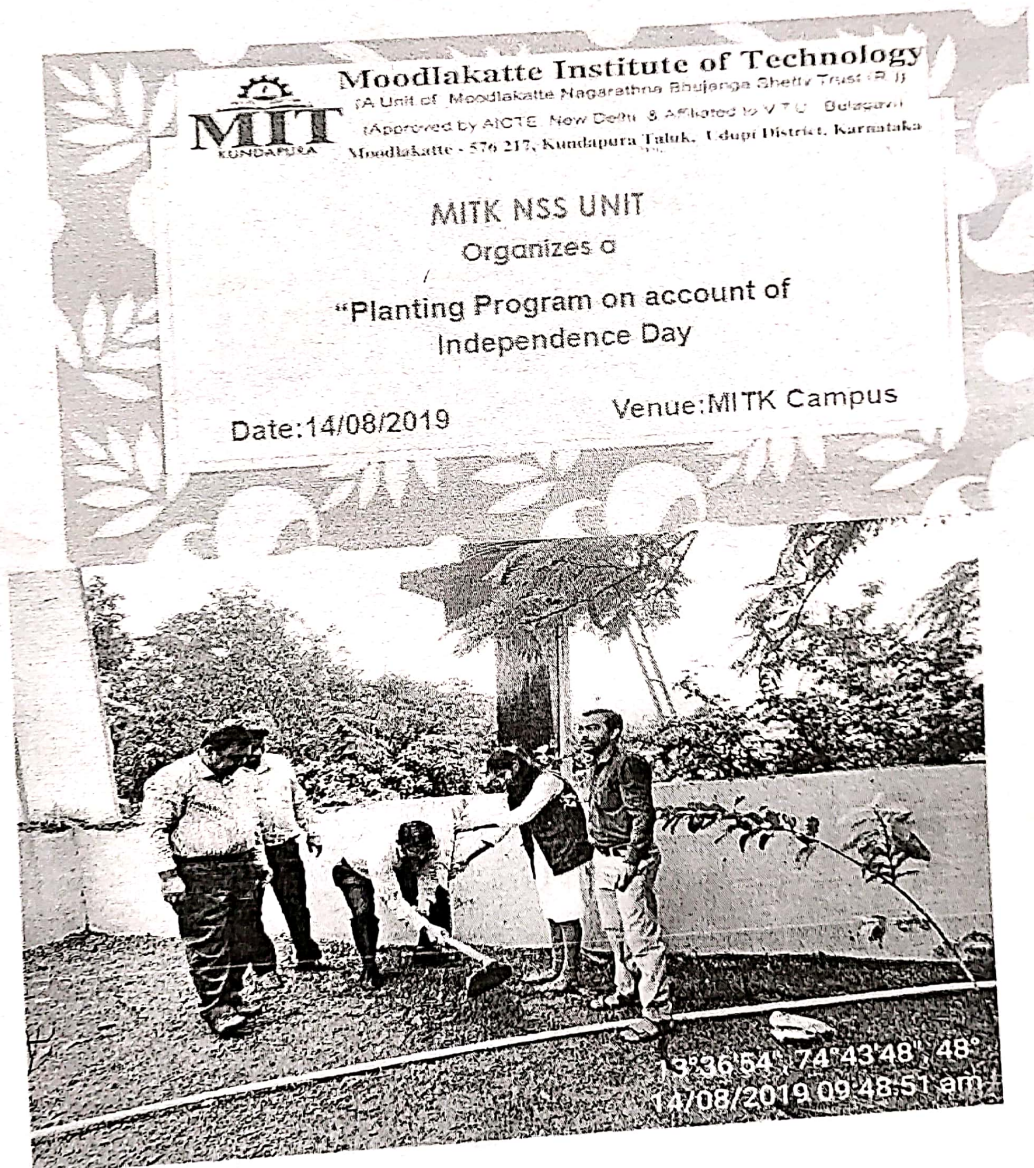

Mr. Manoj Third year ECE

Ms. Kruti , Third year ECE

FEEDBACK

Students: The students found the program was very useful. It was a great day in participating in the planting program. We sow the seeds of hope for a greener tomorrow by planting trees. As we embrace the spirit of Independence Day let us commit to nurturing the saplings we plant, fostering environmental awareness, and collectively working towards a sustainable and harmonious coexistence with nature.
