Language Lab

Language lab help the students in improving their speaking and listening skills. The main objective of language lab is to equip students with good communication skills. Language Guru - Digital Language Lab has been setup to add value to students' learning. It includes study material and exercises for improving different dimensions of language learning. The language lab includes activities like Listen, Speak, Read and Write (LSRW) which is an effective methodology for learning languages. It enhances the experiential learning among the students.

INTERNSHIP

One month internship is taken up by the students after 6th semester. In this, students work in some industry or organization and undergo project work. While doing internship, they get a chance to assist and learn from industry professionals, which help them to understand their work culture, processes followed and how documentation is done. It enhances the experiential learning experience among the students. Other semester students also encouraged to take up the internships during their vacations.

FIELD VISIT

Field visits are like stepping stones for building civil engineers, leading them from the theoretical realm to the tangible world of construction. On-site experiences reveal how materials come together, the intricacies of components, and the building processes.

Civil Engineering students of MITK compulsorily attending field visit trip to enhance their experiential learning. They gain knowledge of real problem facing during construction as well as they learn about overcoming these problems.

This document reveals the process conducted by the institute to enhancing Teaching learning through field visit.

Dear Sir,

Sub: Requesting your permission for field visit to Signature construction site.

Greetings from Moodlakatte Institute of Technology Kundapura

The students of Civil Engineering of our Institute are interested in visiting construction site at Udupi. Kindly give us permission to visit the site on 13th march 2023 (Thursday). The Approximate strength of students accompanied by faculty will be 10. The list of faculty/students will be submitted to the concerned official during the visit. We kindly request you to permit the students and faculty to visit the above-mentioned project sites to help them in enhancing their practical knowledge.

Thanking you,

Professor & Head, Civil Department

CIRCULAR

Department of civil engineering under organized a "Field Visit" to Udupi construction site on 15th March 2023. The students here by informed to compulsory attend the visit. The students are instructed to always wear shoes, carry ID cards and bring their own water bottles. All students should be on the college campus at 09:00 AM and the college bus leaving the campus at 09:05 AM for the field visit. The faculty assigned for the industrial visit are as follows:

Ms. Chayashree

Dr. Ramakrishna Hedge

Copy to:

1. Students of final year and pre final year.
2. All civil faculty members.
3. Security officer to provide college bus.
4. Principal - for information.

| Number of Participants | 12 |

The Department of Civil engineering of Moodlakatte Institute of Technology, in organized a "Field Visit" to Udupi construction site on 15th march 2023. In the construction site, residential apartments building pile foundation construction was in progress. The Site Engineer Mr. Adarsh explained the soil condition and the requirement of pile foundation. Using structural drawing the detailing of reinforcement of pile foundation was explained in detail.

The Students verified the reinforcement details for the pile foundation. In the site the students properly checked diameter of bars, spacing of tie bars and longitudinal bars. The students checked the binding wire connection provided by the laborers. The students thoroughly crossed verified structural drawing and detailing of reinforcement of pile foundation. The slump test was conducted on site for the RMC mix by the students and the slump found had good workability. Students also calculated the quantity of concrete required for a pile. The students got excellent experience of evaluating the work progress, quantity and quality of work.

The students reported that works progress is good. The quantity and quality of work are as per the standards and laborers are preparing the reinforcement as per the structural drawings.

INDUSTRIAL VISITS

Industrial visits are integral to the comprehensive learning and growth of students. They hold significant value within engineering undergraduate programs, facilitating the attainment of diverse learning outcomes and program objectives. The primary aim of these visits is to offer students to providing valuable insights into their future job roles upon entering the workforce. MITK organizes annual excursions to prominent industries in the region are organized to afford students exposure to industry dynamics and professional environments, thereby enriching their experiential learning journey.
