Participants

Final Year Engineering-Mechanical Engineering students -30

Preamble:

The Training and Placement Cell of MITK organized a one-hour talk on the "Importance of Skill Training for Mechanical Graduates" for pre-final year students of Mechanical Engineering on 3rd March 2019. The session aimed to emphasize the critical role of skill training in enhancing the preparedness of mechanical engineering students for the industry. The talk was delivered by Mr. Kiran Hebbar of KH Designs from Bangalore.

Objective:

The primary objective of the talk was to underline the significance of skill training in the holistic development of Mechanical Engineering students. Specific objectives included:

1. Communicating the importance of acquiring practical skills alongside academic knowledge.
2. Emphasizing how skill training contributes to making students more industry-ready.
3. Providing insights into the types of skills that are particularly valuable for mechanical engineering graduates.

Session Highlights:

The talk, held on 3rd April 2019, covered key highlights related to skill training for Mechanical Engineering students:

1. Strengthening Skills and Knowledge:

- Mr. Kiran Hebbar underscored the role of skill training in fortifying students' theoretical knowledge with practical skills.
- The session highlighted how hands-on experience and proficiency in practical applications enhance overall competence.

2. Industry Readiness:

- The speaker emphasized that skill training is a crucial factor in making students more industry-ready.
- Real-world examples and case studies were presented to illustrate how specific skills align with industry requirements.

3. Skill Types and Relevance:

- The talk delved into different types of skills that are particularly relevant to Mechanical Engineering, including technical, problem-solving, and communication skills.
- Mr. Kiran Hebbar provided insights into how a balanced skill set contributes to a successful and fulfilling career.

Outcome with Feedback:

The talk on the "Importance of Skill Training for Mechanical Graduates" yielded positive outcomes, as evidenced by student feedback and evaluations:

1. Increased Awareness:

- Students reported a heightened awareness of the importance of skill training as a complementary aspect to their academic curriculum.
- The session prompted students to consider how acquiring practical skills can positively impact their future careers.

2. Industry Perspective:

- The real-world examples shared by Mr. Kiran Hebbar provided a valuable industry perspective, helping students connect theoretical knowledge with practical applications.
- Feedback indicated an enhanced understanding of industry expectations and requirements.

3. Motivation for Skill Development:

- Students expressed motivation to actively seek out opportunities for skill development and training.
- The session served as a catalyst for students to proactively engage in activities that contribute to their skill enhancement.

4. Recommendations:

- It is recommended to organize more sessions focusing on specific skills relevant to different engineering disciplines.
- Encouraging collaboration with industry experts for such talks will further enrich the students' learning experience.

Participated Students List

Sl No	Name	Branch
1	GANESH PRASAD	ME
2	DAIN LUKOSHE	ME
3	SADIQ NADAF	ME
4	VIJESH P PRAKASH	ME
5	ADARSHA POOJARY A R	ME
6	AKSHAY ACHARI	ME
7	ANIL BRITTO	ME
8	BASAPPA HIPPARARAGI	ME
9	BASAYYA DANAYYA MATHAPATI	ME
10	CHANDRU M S	ME
11	DISHAN D KOTIAN	ME
12	EMMANUEL D SA	ME
13	GANESH MAHABHALA MARATHI	ME
14	GANESH KUMAR K M	ME
15	GURUPRASAD	ME
16	HARISH R	ME
