---

- Event** : Community class in association with NAMMA BHOOMI NGO
- Organized On** : December 2021 to March 2022
- Participants** : Students from CSE, ECE

## Preamble

MITK organized a program called “Community class in association with NAMMA BHOOMI NGO”. This report presents an overview of the collaboration between the students of MITK and the Namma Bhoomi NGO in conducting community classes in rural areas. The initiative aimed to contribute to the education and overall development of underprivileged children residing in these areas.

## **About the trust:**

In India, majority of students pursuing their education in rural area are deprived of quality education due to lack of competence, learning materials, instruments and so on. Considering those challenges in mind, team NAMMA BHOOMI decided to share the knowledge amongst the kids, who were studying in rural government high schools of Dakshina Kannada. Team. The aim of this trust is to reach and empower rural government high schools and to enhance the practical knowledge and creativity of the students. Activities designed with creativity like hands-on workshops. In addition, the trust focuses on making children career-oriented, based on their aspirations and potential.

## **Objectives of the initiative**

Moodlakatte Institute of Technology Kundapura was established in the year 2004, under the leadership of the philanthropic, technocrat Late I M Jayaram Shetty and the iconic MNBS Trust, MITK has reached out to the rural communities as a symbol of hope for availing technical education. It became a beacon of light for those young minds that were economically less advantaged, but were still nursing big dreams of pursuing professional engineering degrees and becoming competent entrepreneur, technocrats or employees. The objectives of this initiative are to enhance educational opportunities for children in rural areas, to facilitate holistic development through extracurricular activities and to strengthen the bond between urban and rural communities.

## **Implementation**

As a part of social work our students teamed up with the Namma Bhoomi NGO to mentor the underprivileged pre metric children of the village. We have conducted a 3 hr session every weekend to the children where we tried to teach the kids their school concepts with the help of some playful activities. We also engaged the students with fun games. We conducted sessions in December 2021 to March 2022. The children were enthusiastic to learn and coordinated very well. We taught them the subjects which they were facing quite difficult like Maths, Science, English etc. we were telling them many moral stories which they were listening with keen interest. It was a wonderful experience for us with those students who are the bright minds of our nation.

**Feedback:**

**Trust:** Students of MITK actively involved in community classes and their teaching was effective and interactive. All students of that area were benefited from their teaching.

**Students:** We are really thankful to college for giving this wonderful opportunity. It's our great pleasure to interact with rural areas children's and to share our knowledge.

**Appreciation Certificate**

We highly appreciate and value the support and contribution of **Mr. Chandankumar C.N**, Moodlakatte Institution of Technology and Management, Kundapura to conduct Community Classes during the period December 2021 to March 2022 when essential to the Children Sangha organised by our organisation in different Panchayats of Kundapura taluk. This supported the children to understand, learn and secure good score in their academics for the year 2021-22.
