Preamble

The PHP Hypertext Preprocessor (PHP) is a programming language that allows web developers to create dynamic content that interacts with databases. PHP is basically used for developing web-based software applications. PHP started out as a small open source project that evolved as more and more people found out how useful it was. Rasmus Lerdorf unleashed the first version of PHP way back in 1994. PHP is a must for students and working professionals to become a great software engineer specially when they are working in web development domain.

HTML stands for Hyper Text Markup Language, which is the most widely used language on web to develop web pages. HTML was created by Berners-Lee in late 1991 but "HTML 2.0" was the first standard html specification which was published in 1995. Originally, HTML was developed with the intent of defining the structure of documents like headings, paragraphs, lists, and so forth to facilitate the sharing of scientific information between researchers. Now, HTML is being widely used to format web pages with the help of different tags available in HTML language. HTML is a must for students and working professionals to become a great software engineer specially when they are working in web development domain.

Brief Profile of Resource Persons

The Resource Persons were the students of 7th Semester CSE MITK.

Report

Students of 7th Semester CSE, MITK Mr. Chetan, Mr. Shravan, Mr. Yogish, Mr. Akash, Mr. Vasanth, Mr. Rohan, Mr. Punith, Mr. Venu conducted a workshop for 3rd semester students of CSE DEPT; on PHP and HTML. On the first day resource person explained the theory behind PHP and HTML. They explained about the usage and importance of PHP and HTML in creating web pages. They later went to explain about the meaning of web pages.

On second day students were given hands-on session on creation of web pages. The resource persons gave demo on writing the scripts and creation of webpage. They explained the meaning of the code line by line. Students raised many doubts. All their queries were answered. The resource person answered the questions and they were overwhelming by the student response. The students requested the head of the department to conduct more of such workshops in the future.
