

## Moodlakatte Institute of Technology

TRAINING AND PLACEMENT CELL

<b>TOPIC</b> <b>Q-Spiders Aptitude Training</b>
<b>Organized On</b> <b>May 4th-June 4<sup>th</sup></b> <b>2023</b>
<b>Resource Person</b> Mr. Tejas-Aptitude Trainer -Q Spiders
<b>Contact Details</b> Phone No: 9611528505
<b>Participants</b> Branch/ Section: 8 <sup>th</sup> Semester ECE and CSE Students Number of Students: 59

## Preamble

This report provides an overview of the aptitude training program designed and conducted for Bachelor of Engineering (BE) students. The objective of this training program is to equip BE students with essential skills and competencies that will enhance their problem-solving abilities and prepare them for success in their academic and professional pursuits.

### BRIEF PROFILE OF TRAINER

**Mr. Tejas**- Software Test Engineer- Quality Analyst

Borderless Access

### Training Objectives:

The primary objectives of our aptitude training program for BE students are as follows:

- a. Enhance Problem-Solving Skills: To improve students' ability to analyze complex problems, identify issues, and develop effective solutions.
- b. Foster Critical Thinking: To promote critical thinking skills, enabling students to make informed decisions and think critically about engineering problems.
- c. Strengthen Quantitative Proficiency: To enhance mathematical and quantitative skills that are integral to engineering tasks and coursework.
- d. Improve Logical and Analytical Reasoning: To develop logical and analytical reasoning abilities, which are essential for problem-solving and engineering design.
- e. Prepare for Competitive Exams: To provide students with the necessary aptitude skills to excel in various competitive exams and entrance tests for higher education and job placements.

### Training Details:

The aptitude training program for BE students is structured to cover the following areas:

- a. Mathematics: Focuses on fundamental mathematical concepts and problem-solving techniques.
- b. Logical Reasoning: Develops logical reasoning abilities through puzzles, patterns, and deductive reasoning exercises.
- c. Data Interpretation: Enhances data analysis skills, including interpreting charts, graphs, and statistical data.
- d. Verbal and Non-Verbal Reasoning: Strengthens communication and reasoning skills, including reading comprehension and pattern recognition.
- e. Mock Tests and Practice: Provides students with ample opportunities to practice and improve their aptitude skills through mock tests and exercises.

### Outcomes and Benefits:

The aptitude training program has led to several positive outcomes for BE students:

- a. Improved Academic Performance: Students have reported better performance in mathematics and quantitative-heavy courses.
- b. Enhanced Problem-Solving: Students are better equipped to tackle complex engineering problems and projects.
- c. Increased Confidence: Improved aptitude skills have boosted students' confidence in competitive exams and job interviews.
  
- d. Readiness for Future Challenges: The training program has equipped students with essential skills for their future academic and professional endeavors.

### **ORGANIZING COMMITTEE**

Prof.Amruthmala-Dean TPIR

Prof.Akshatha Naik-Placement Officer

Prof.Manoj -Placement CO-ordinator

Prof.Saakshi- Placement CO-ordinator

### **FEEDBACK**

"The way in which the content was delivered was engaging and kept the participants actively involved throughout the session. The use of real-life examples and interactive activities added value to the learning experience."

"The training materials and resources provided were well-organized and useful for reference. I found them to be a valuable addition to the learning experience."

Java Assessment Paper 3

1) class Test extends Exception { }

```
class Main {  
    public static void main(String args[]) {  
        try {  
            throw new Test();  
        }  
        catch(Test t) {  
            System.out.println("Got the Test Exception");  
        }  
        finally {  
            System.out.println("Inside finally block ");  
        }  
    }  
}
```

- A. Compiler Error
- B. Got the Test Exception
- C. Inside finally block
- D. Got the Test Exception  
Inside finally block**

2) Which one of the following is a valid statement?

- A. char[] c = new char();
- B. char[] c = new char[5];**
- C. char[] c = new char[];
- D. char[] c = new char(4);

3) What will be the output of the following program code?

```
class LogicalCompare  
{  
    public static void main(String args[])  
    {  
        String str1 = new String("OKAY");  
        String str2 = new String(str1);  
        System.out.println(str1 == str2);  
    }  
}
```

- A. 1
- B. Displays error message
- C. False**
- D. 0
